Evidence Based Library and Information Practice (EBLIP) welcomes review articles on topics of relevance to practitioners in library and information studies. Reviews may take several different forms, including systematic reviews, scoping reviews, narrative reviews, meta-analyses, or state-of-the-art reviews, among others.

In its eighteenth year of publication, *EBLIP* is a peer reviewed, open access journal published quarterly on the 15th of March, June, September, and December. The purpose of the journal is to provide a forum for librarians and other information professionals to discover research that may contribute to decision making in professional practice.

Further information regarding author guidelines for reviews and the online submission process can be found on the *EBLIP* website at <https://journals.library.ualberta.ca/eblip/index.php/EBLIP/guidelines>. Questions about possible submissions can be directed to Dr. Lisl Zach, Associate Editor (Reviews), at lisl@marsez.com.
