Evidence Based Library and Information Practice (EBLIP), a peer-reviewed open access journal published since 2006, seeks to fill the position of **Associate Editor (Research Articles)**. The successful candidate will be expected to begin their role by August 2026 and serve a three-year term (with possibility of renewal). This person will share the workload with a second Associate Editor.

The **Associate Editor (Research Articles)** will be responsible for:

- Overseeing the complete editorial process for items submitted to the Research Articles section. This includes reading submissions, assigning peer reviewers, monitoring the peer review process, communicating with authors and peer reviewers, providing editing guidance to authors, ensuring required changes to manuscripts are made, making acceptance and rejection decisions, and communicating with copyeditors and the production editor to ensure the final copy is as expected.
- Communicating and consulting with the Editor-in-Chief and the other Associate Editor for Research Articles on a regular basis.
- Attending Editorial Team meetings via Zoom twice a year.
- Participating in the overall governance of the journal.
- Ensuring that all deadlines are met.

See *EBLIP's* [Instructions for Authors](#) for more information about research articles and other types of submissions accepted by the journal.

The ideal candidate for this position will be well-versed in evidence based practice, research methods, and manuscript review and editing. This position requires dedicated time on a regular

basis, and it is therefore essential that interested persons ensure available time to devote to this position prior to applying. It is estimated that the workload is approximately 15+ hours per month.

Interested persons should send a resume/CV and cover letter indicating areas of strength they would bring to the role to Ann Medaille, Editor-in-Chief, at amedaille@unr.edu by April 15, 2026. The resume/CV and cover letter should be sent as a single PDF file. The current Associate Editors (Research Articles) are happy to answer specific queries about the role; please email Erin Owens (eowens@shsu.edu) and Nikki Tummon (nikki.tummon@mcgill.ca) with your questions.

**Please note that *Evidence Based Library and Information Practice* is a non-profit, open access journal, and all positions are voluntary and unpaid.

About the journal:

Published quarterly and hosted by the University of Alberta, this peer-reviewed, open access journal is targeted at all library and information professionals interested in an evidence based model of practice. By facilitating access to librarianship research via original research articles and evidence summaries of relevant research from the library literature, *Evidence Based Library and Information Practice* enables librarians to practice their profession in an evidence based manner. Please visit the [Evidence Based Library and Information Practice website](#) for further information about the journal.
