

CHAPTER HIGHLIGHTS / FAITS SAILLANTS DES CHAPITRES**Southwestern Ontario Health Libraries Information Network**

It has been a busy year for the Southwestern Ontario Health Libraries Information Network (SOHLIN). Recently, we held our annual fall meeting, where we were able to virtually attend the Medical Library Association webcast highlighting e-book collections policies for medical and academic libraries. As well, Orvie Dingwall and Jennifer Bayne teleconferenced in to discuss and answer any questions that our chapter had regarding the Canadian Virtual Health Library. At this meeting we also discussed opportunities for upcoming continuing education initiatives and had a brief presentation about the 2011 Canadian Health Libraries Association (CHLA) conference in Calgary. Another item on the agenda was an update from four of our chapter members regarding their Chapter Initiative Funded research into the recent H1N1 pandemic.

We are looking forward to the upcoming CHLA events of 2011.
