

CHAPTER HIGHLIGHTS / FAITS SAILLANTS DES CHAPITRES

Northern Lights Health Libraries Association (Ontario)

The chapter has been very active in education activities so far this year. At our June meeting, we held a chapter-wide videoconference session on the features and use of the Cochrane library (with Wiley representative Tim Powers), which was also open to staff members at member institutions. Member Jami Van Haaften, from Sudbury Regional Hospital, published an information item on the Canada-wide trial access to Cochrane in the North-East Local Health Integration Network Newsletter. Patty Fink, with colleagues Melissa Helwig and Jennifer Dumond, of the Northern Ontario School of Medicine, presented a poster at the CHLA conference titled "Northern Ontario School of Medicine — The Library's First Four Years". Kimberley Aslett presented at a

local conference, "Fostering a Culture of Teaching and Learning in College and University", on Evidence-based Nursing Resources. And Sudbury Regional Hospital hosted a 2-day exhibit of their Cancer and Mental Health Patient Library Services at the May Ontario Library Services – North conference in Sudbury.
