

Survey to Determine the Research Support Needs of CHLA/ABSC Members

Version française à: goo.gl/ZeWZsd

Dear CHLA/ABSC Member:

Thank you for taking part in the CHLA/ABSC Special Committee on Research survey, designed to determine how CHLA/ABSC can best meet the research support needs of its membership. We hope that by gaining insight from your responses, we can create effective research support services. This survey (below) will take approximately 15 minutes of your time.

There is no known harm to you in completing this survey and the only potential benefit to you is in receiving improved research support from CHLA/ABSC. Your responses are anonymous. You may stop answering the survey and leave the survey system at any time, without penalty. Once you have submitted data, it cannot be withdrawn.

At the end of the survey you will be asked whether or not you wish to take part in follow-up conversations about the survey. If you wish to do so you may link to a separate and unconnected form where you may supply your contact information. There will be no attempt to connect your contact information with your responses to the survey.

In addition to providing CHLA/ABSC with valuable information about your research support needs, data collected via this survey will be presented at the Research Interest Group session at 2017 CHLA/ABSC Annual Meeting and as scholarly presentations at other library-related venues. The results of this research may also be used in research articles. Each stated use of the data collected will be handled in compliance with the University of Alberta's Human Research Ethics Policy <https://policiesonline.ualberta.ca/PoliciesProcedures/Pages/DispPol.aspx?PID=48>. In keeping with required standards, data collected with the survey will be retained for a minimum of five (5) years. In addition, it is our intention to make the anonymous data open for use by other researchers after the five year period.

Please complete this survey by March 24, 2017.

Participation in this survey implies consent.

If you have questions about this survey, please contact:

Thank you.
